SHINCHAN ONLINE HACKATHON 2026 · DIGITAL DARK SPOT

GapLens finds what your sources hide

Built solo by Abhijeet Kumar · live, free, open source ↗

THE PROBLEM

One scholarship answer, five tabs that disagree

Scattered

The portal, guides and news sites each hold one piece. No page is complete.

Contradictory

One site says the income limit is ₹3.5 lakh. Another says ₹2.5 lakh.

Stale

Many pages carry no date. Last year's rules look like this year's.

WHY EXISTING TOOLS FALL SHORT

Today's tools give answers, not the gaps

	SHOWS WHAT IS MISSING	EXACT QUOTE PER FACT	FLAGS CONFLICTS	FLAGS STALE PAGES
Search engine	—	—	—	—
AI chatbot	—	Rarely	—	—
Summariser	—	—	—	—
GapLens	**Yes**	**Verified in code**	**Side by side**	**Yes**

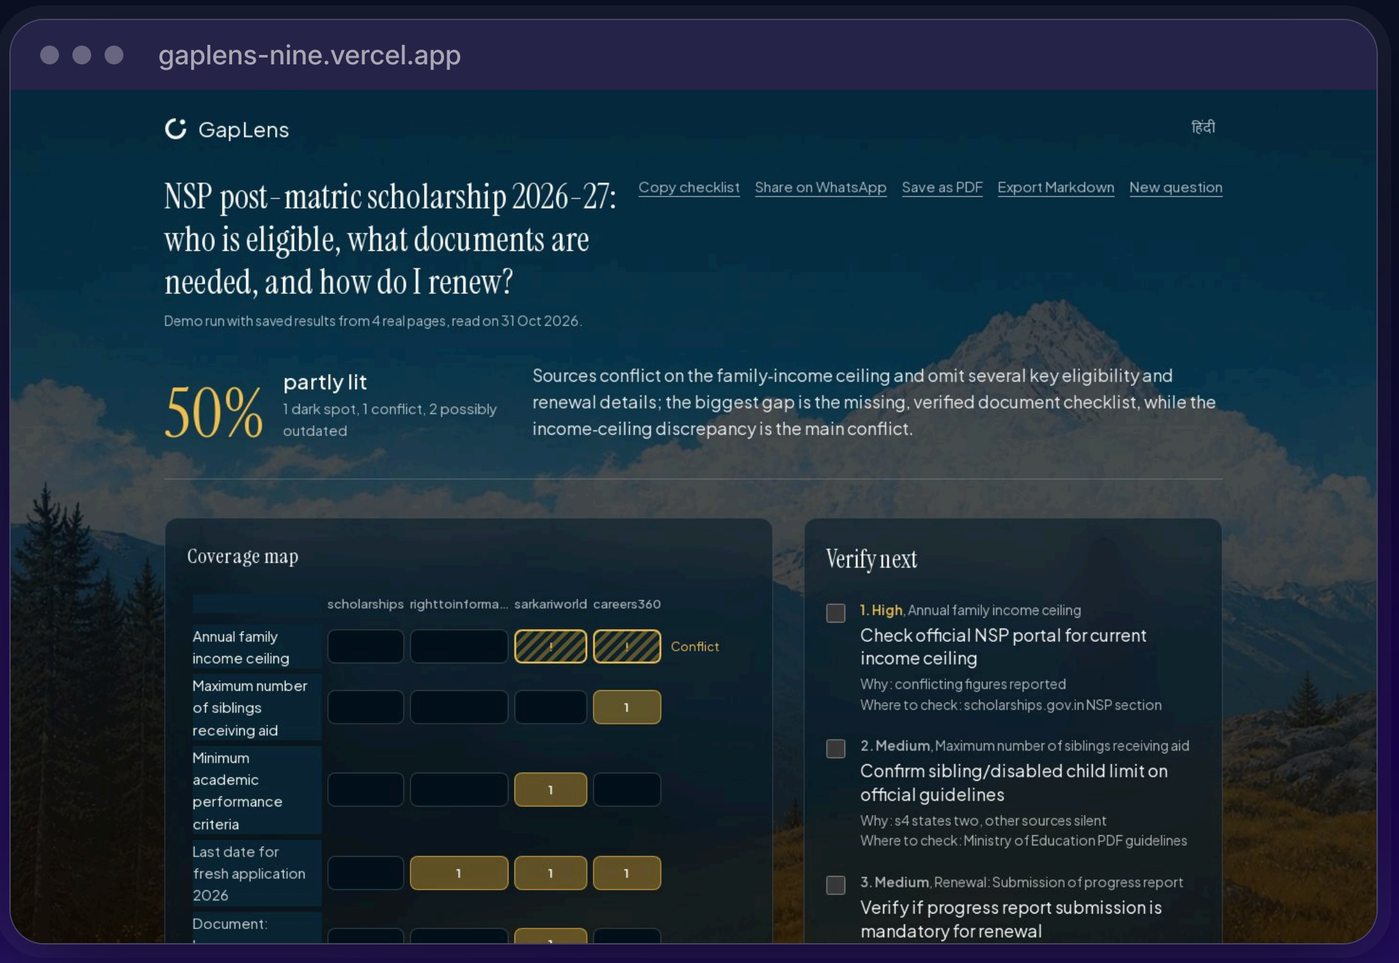

THE SOLUTION

GapLens maps every gap at once

Ask one question with 2 to 6 links or pasted text. See what is confirmed, missing, conflicting or old.

#COVERAGE MAP #DARK SPOTS

#CONFLICTS #VERIFY NEXT

HOW IT WORKS

Four steps turn links into checked evidence

01

Read

Pages are extracted server-side. Private addresses are blocked. Paste text when a site refuses.

02

Plan

The model lists every checkable fact a complete answer needs.

03

Evidence

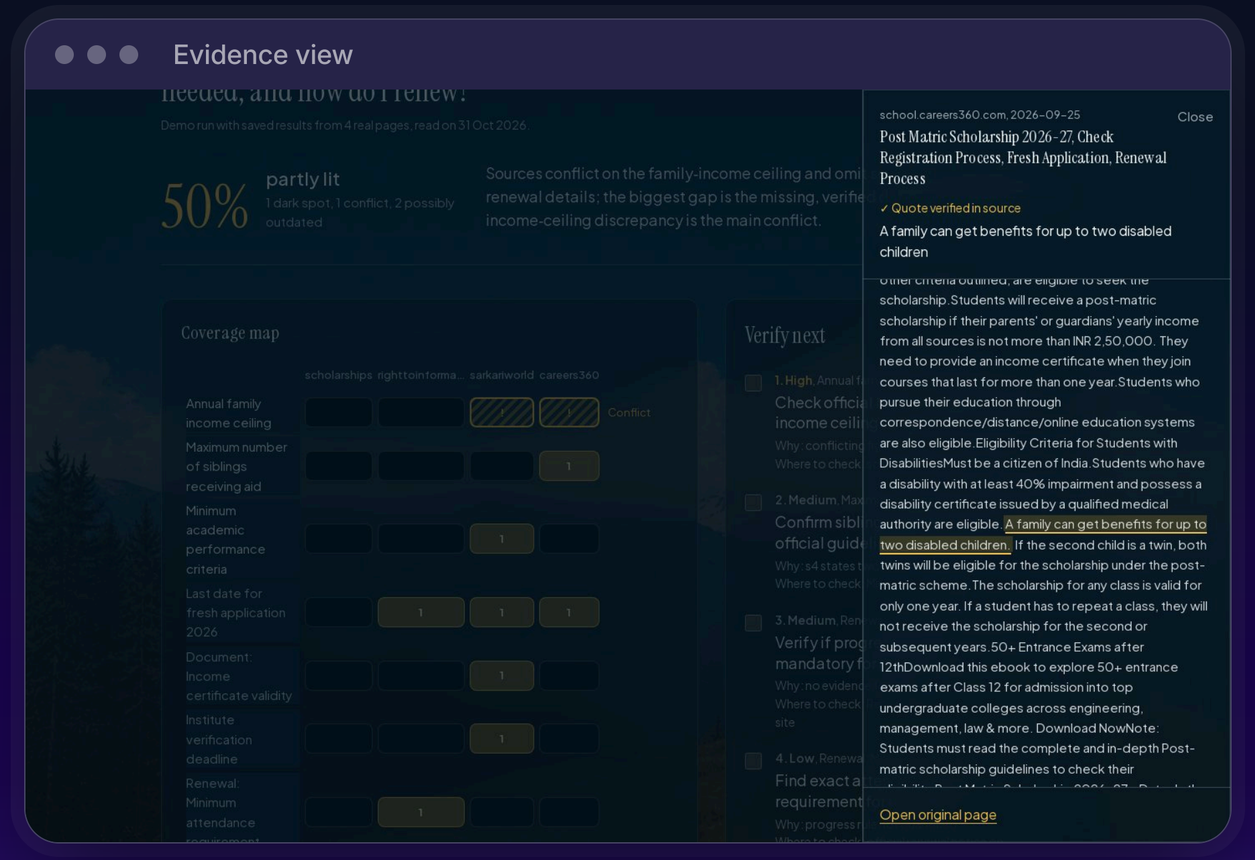

Each fact needs a verbatim quote. Code checks the quote against the page.

04

Score

Conflicts and gaps are proposed. Coverage is computed in code from verified facts only.

Groq gpt-oss-120b plans and reads · verifyQuote and the score run in plain code ↗

PROOF OVER CONFIDENCE

Every fact carries a checked quote

Verified
Quotes are matched to the page text. A paraphrase is marked unverified.

Deterministic
Score and status come from code, not the model's opinion.

Honest
Every finding links back to its source to double-check.

LIVE DEMO · NSP POST-MATRIC SCHOLARSHIP 2026-27

Four real pages, and they still left gaps

4
Real pages read
Official portal + 3 guides

9
Facts planned
Eligibility, documents, renewal

11/11
Quotes verified
Each traced to exact text

50%
Coverage score
1 conflict, 1 dark spot

Run on 31 Oct 2026 over scholarships.gov.in, careers360, sarkariworld and righttoinformation.wiki ↗

MADE FOR INDIAN STUDENTS

Hindi, mobile, WhatsApp-ready

The whole interface and report switch to Hindi in one tap. Share the checklist on WhatsApp, export PDF or Markdown. No sign-up.

TECH STACK

A lean open stack, live in production

FRONTEND
Next.js 15 · React 19 · TypeScript

STYLING
Tailwind CSS v4 · Framer Motion

READING
Mozilla Readability · linkedom

AI
Groq gpt-oss-120b + fallbacks

SAFETY
Zod schemas · JSON mode · SSRF guard

HOSTING
Vercel · MIT licence on GitHub

Four API routes: extract, aspects, evidence, synthesize ↗

FUTURE SCOPE

Next: check any page, in any language

01	**Browser extension**	Check the tabs you already have open
02	**More Indian languages**	Bengali, Tamil, Marathi and more
03	**PDF and OCR**	Read scanned government notices
04	**Change alerts**	Know when an official page updates
05	**API for counsellors**	Schools and NGOs check at scale

CONCLUSION

Five tabs in.
One verified checklist out.

GapLens shows what your sources confirm, leave out, contradict or let go stale, with a quote for every fact.
